

Peter Packet Theme Song Lyrics

Peter Packet hears the call
On Internet protocol
Jumping through the firewall
(Peter Packet!)
For every path that he takes
A router tries not to make
bandwidth mistakes.

CHORUS:

Peter Packet is on the go,
Helping the world—you can't go slow
Peter Packet is on the go, on the go
(Peter Packet!)

A server sends the packets out
Each one takes a different route.
Speed is what it's all about
Dodging all viruses
Trying not to get caught
In the hacker's net.

CHORUS:

Peter Packet is on the go,
Helping the world—you can't go slow
Peter Packet is on the go, on the go
(Peter Packet!)
